

TECHNICAL DATA SHEET

Haifa SOP

SOP Potassium sulphate

0 - 0 - 50 + 42.5 SO

RODUCT ANALYSIS

		VI
Potassium oxide (K2O) soluble in water	50 %	Haifa
Potassium (K) soluble in water	42.5 %	5
Sulfuric anhydride (SO3) soluble in water	45 %	Holfo
Sulfur (S) soluble in water	18 %	
Ph	(1% solution) 4	
Insoluble matter	1000 ppm maximun	
Density	1.3 g/cm3	
Solubility in water	110 g / lt	
Aspect	White powder	

PACKAGING:

• 25 kg bag

USAGES:

- Can be used in fertigation for open field and greenhouse crops
- Particularly suitable for the potassium requirements of fruit trees and vegetables during periods of growth and maturation
