

TECHNICAL DATA SHEET

Potassium sulphate (SOP)

NPK: 0-0-50 +46SO₃

- Fully water-soluble free-flowing crystalline product
- Provides the plant with a high concentration of potassium and sulphur
- Chlorine-free
- Increases the availability of phosphorus, calcium, magnesium and trace elements

Chemical composition

Potassium oxide (K ₂ O)	50 %
Sulphur trioxide (SO ₃)	46 %

Description

Kalasul is a source of potassium and sulphur, ideal for salt sensitive plants. Because of its low pH (± 3), the use of Kalasul also increases the availability of phosphates, iron and other trace elements. Furthermore, the low pH of the product prevents inorganic deposits in your fertigation system, which prevents blockages.

PACKAGING:

- 25 kg bag

USES:

- Can be used in fertigation for open field and greenhouse crops
- Is particularly suited to fulfill vegetable and fruit trees requirements during growth and maturation periods
