

TECHNICAL DATA SHEET

Magnesium sulphate

Magnesium sulphate 16% MgO

- Free-flowing crystalline product
- Source of magnesium and sulphates
- Very soluble in water
- Neutral pH
- Can be applied in fertigation or via leaf feeding

Chemical composition

Magnesium oxide (MgO)	16 %
Sulphur trioxide (SO ₃)	33 %

Description

Magasul is a crystalline magnesium sulphate heptahydrate. The product provides magnesium and sulphate in plant available form and can therefore, in addition to its use in general nutrition, be perfectly used on plants with a magnesium deficiency. Because of its neutral pH Magasul will not change the pH of the soil, which makes the product ideal for fertigation in outdoor crops.

PACKAGING:

- 25 kg bag

USES:

- Can be used in fertigation for open field and greenhouse crops
- Is particularly suited to fulfill vegetable and fruit trees requirements during growth and maturation periods
